PURPOSE

(U) The purpose of this paper is to secure the signature of the Secretary of the Army on a memorandum to the Secretary of Defense giving the Secretary of Defense information requested by him on planning for the deployment of a two-division force, a four-division force, and a six-division force to Europe.

DISCUSSION

1. (U) Transportation requirements plans have been developed which deploy each of the above division forces to Europe by 1 January 1962. Each of the plans includes transportation requirements for:

- Individual fillers for USAREUR units
- Combat and combat-support units to round out current USAREUR forces
- 30 days' supply for fillers and units
- Resupply of accumulated USAREUR forces

2. (U) Transportation capabilities plans have been developed unilaterally by the Army, utilizing airlift and sea lift that can be made available. They include phasing requirements of CINUSAREUR but do not consider transportation requirements of the other services.

3. (U) Plans for stationing augmentation forces in Europe have likewise been developed. These plans include phasing requirements as submitted by CINUSAREUR.

RECOMMENDATION

(U) That the Secretary of the Army sign and dispatch the attached memorandum (Incl 1) for the Secretary of Defense.
